

Amendment To The Abstract

Applicant submits a replacement abstract pursuant to § 37 CFR 1.72(b) and 37 CFR 1.121 of the Regulations. Please replace the "Abstract Of The Disclosure" of the originally filed specification with the following replacement Abstract that contains no new subject matter.

**ABSTRACT OF THE DISCLOSURE**

A combination portable insulated thermal container and multi-media entertainment center includes sidewalls defining a rectangular-shaped container, with the container internally divided into adjacent cavities separated by a partition wall with each cavity having a pivotal lid portion for covering and uncovering the cavities. Mounted to a front panel of the container is a media player that can include a radio, a cassette, a CD player and associated speakers. One sidewall includes drink and utensil holders and a drain cap for draining the larger cavity while a first aid kit and bottle opener are mounted to the opposite sidewall. An antenna that can extend upwardly beyond the lid portions is mounted to one sidewall and is electrically interconnected to the media player.
